

Property Tax Statements

PROPERTY TAX STATEMENTS

Property tax statements are issued by Hennepin County. When reviewing your proposed tax statement, it is important to keep in mind that other factors including the valuation of your property (determined by the county assessor and affected by market conditions), legislative changes to the property class rates, and property tax portions added from the School District, County and Watershed Districts will affect your property tax bill. In addition, the Minnetrista City Council has no control over the valuation given to your property by the county assessor or the taxes assessed by other entities.

Residents should feel free to contact each entity directly regarding their respective portions of their property taxes. Numbers are listed below for your convenience and can also be found on your proposed property tax statement.

Delano Schools
